#### **DETAILED ACTION**

### Specification

- 1. The abstract of the disclosure is objected to because the first nine lines of the abstract are directed to the disclosed invention, and not the claimed invention. It is suggested applicant either delete those lines or place them after the description of the manhole device. Correction is required. See MPEP § 608.01(b).
- 2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

## Claim Rejections - 35 USC § 112

- 3. Claims 45-48 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no description of how the structure of the at least one track raises the closure vertically above the flange as the closure pivots.
- 4. Claims 45-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

How is it possible for the at least one track to allow "raising the closure vertically above the flange as the closure pivots", i.e., what is the structure of the track that allows this to occur?

5. In view of the rejections under 35 USC 112, 1<sup>st</sup> and 2<sup>nd</sup> paragraphs, patentability of the claims cannot be determined at this time.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various multidirectional pivoting closures or closures with clamps are cited for their disclosures.

- 7. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 305-3579. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.
- 8. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

The U	I hereby certify that this correspondence for Application Serial No is being facsimiled t J.S. Patent and Trademark Office via fax number (703) 305-3579 on the date shown below:
